

# 2012

## Chris Brown

[Intro]

Faire l'amour lendemain ..[Verse 1:]

What if the sky was turning red?

I know we'd be safe

Right here in my bed

Laying face to face, oh girl,

I love the way you sound

When you rain on me,

So tonight let's act it out

Show you how it's gon' be,

I'm gon' kiss your other set of lips

Hold your body by your legs and hips

The world can't end until we finish

Girl we gon'...[Hook:]

We gon' do it like it's 'bout to be the end of the world

And they depended on us

To make earth shaking love

As we lay down, lay down

Telling me to go harder, go harder

Telling me to go deeper, go deeper

I feel your knees getting weaker and weaker

We can go longer if you just lay down, lay down[Verse 2:]

All these vibrations from your legs

Massaging my back

I got your body shivering

Cause we're covered in sweat

Girl I like the way it opens up

When you throw it back baby

Girl it might be too much

Babe if you keep doing that

I got that pillow for your knees right here

Baby can you make it disappear?

Your voice is the last thing I'm gonna hear

Then I wanna make you holla[Hook:]

We gon' do it like it's 'bout to be the end of the world

And they depended on us

To make earth shaking love

As we lay down, lay down

Telling me to go harder, go harder

Telling me to go deeper, go deeper  
I feel your knees getting weaker and weaker  
We can go longer if you just lay down, lay down[Bridge:]  
Do it like we only got one  
Baby let's pretend we only got one night  
One last time,  
Let me take my time,  
Do it to you right  
Buildings and bridges maybe falling down  
But that won't stop me from turning that thing around  
Girl yeah  
Won't you come on over and we can treat it like it's the motherfucking  
End of the world[Hook:]  
And they depended on us  
To make earth shaking love  
As we lay down, lay down  
Telling me to go harder, go harder  
Telling me to go deeper, go deeper  
I feel your knees getting weaker and weaker  
We can go longer if you just lay down, lay down[Outro:]  
A nigga goin hard in the paint  
Ya think I can't [repeat]
