

Kings of the World

Dwarves

Hail you sons of Satan
Shootin' Innocent wives and children
Hail those lords and ladies
as they die, firing lines of babies Hail the Kings of the World
Villains and heroes stand up and burn
The wheels of history turn
Death lives forever! Shock troops shake roll and rattle
Wasted lives, sanctified in battle Hail the Kings of the World
Villains and heroes stand up and burn
The wheels of industry turn
Death lives forever! Hail the Kings of the World
Villains and heroes stand up and burn
The wheels of destiny turn
Death lives forever! Hail the Kings of the World
