The Great Destroyer

Horwath, Florian

Say your name
Try to speak as clearly as you can
You know
Everything gets written down
Nod your head
Just in case they could be watching
With their
Shiny satellites
I hope they cannot see
The limitless potential
Living inside of me
To murder everything
I hope they cannot see
I am the great destroyer
Turn it up
Listen to the shit they pump
Into your head
Filling you with apathy
Hold your breath
Wait until you know the time is
Right on time
The end is near
I hope they cannot see
The limitless potential
Living inside of me
To murder everything
I hope they cannot see
I am the great destroyer
