## Death From Above 1979

Can you remember a time when this city was  
A great place for architects and dilitants  
A nice place for midwives and crossing guards  
And on, and on...Hold on children  
Your mother and father are leaving  
Do you remember a time when this pool was  
A great place for waterwings and cannonballs  
A nice place for astrologists and blow up dolls  
And on, and on...Hold on children  
Your best friend's parents are leaving
