

You Are the Beauty

Gungor

You are the beauty.
You are the light
You are the love, love of mine Love, love, love of mine
You have caused the sun to shine on us
Music fills our ears
Flavors kiss our lips with love divine You are the beauty
You are the light
You are the love, love of mine Breath and sex and sight
All things made for good in love divine Oh
Oh You are the love, love of mine
You are the love, love of mine
