Liz Longley

You always said I was the sweetest girl you'd ever meet
Now I'm trouble, just a singer on the street
Throw down your beer, come on and dance with me
Hell it's been too long since I saw ya

I'm surprised you even recognized my face
I'm a woman but I've still got them childish ways
You and I could tear up this place
Just loosen up your tie a little

Chorus:
Oh baby I'm free, freer than a bird in flight
Free, wilder than the moon at night
Free, freer than the fourth of July

We could stay all night and just hail a cab
I'm your best friends sister, that girl you never had
We may never know love and ain't nothing wrong with that
I just wanna live a little

Chorus Repeats

Oh, Saturday night I'm a hot loose wire
And you, you know your fate like a house on fire
Bet you'd love to tell me I'm the girl you admire but you're just too shy to say it
Come on boy, just say it

Oh can't you be free?
Freer than a bird in flight
Free, wilder than the moon at night
Free, freer than the fourth of July
