

# High School Party (Girl)

## Bo Burnham

High School party, senior year  
Boys and girls are all sippin' on beer  
I like soda, where's the soda  
Am I the only fucking person here that likes soda  
I see you from across the crowd  
I said the party is bumpin' and the music is loud  
You're really drunk and you're looking sad  
It's like a date rape ad

Girl, then we start to dance and  
Girl, baby this is romance  
Girl, I'm starting to grow down below, shit, why did I wear sweat pants  
Girl, you're bodies like what  
conjunction junction, that's a fine ass but  
I'm like a cashew in a lollipop, Just keeping suckin' 'til you get to the nut

And I said  
Let's rob an Asian kitchen, or stroll down the block  
Either way girl, we're taking a walk(wok)?nothing?  
You're going to love me the way my uncle did  
Except you're not gonna to go to court for doin' it  
Be a guillotine or my girl instead  
Either way, you're giving me head  
I'm gonna love you the right way  
Shorty with a body looking hotty when I say

Girl  
When I say girl

We go into the bedroom exchanging nervous laughter  
Why's it called dry humping if I always need a towel after  
You spread your naked legs and I see that wounded that never healed  
Even though you're yelling for me, I can tell your lips are sealed  
We're both aware of my erection  
You ask if I have protection  
I say Well um no...I-I tried to buy em once I was in the convenient store my old baby sitter walked in I had to  
hide them near the tic-tacs I was so embarrassed I peed myself a little bit

Girl

## Girl

Insert a euphemism  
A sexy mental prism  
Increase my pelvic rhythm  
For you with my syllogism  
I know your body and I know how to please ya  
Don?t thank me, thank wikipedia  
Guys don?t go down, well I am-  
What the fuck is that, I should have brought my diagram  
Ooh did you feel that, that was an educated guess  
Ooh did you feel that, uh that one was a sneeze, my bad

High school party, senior year  
None of that happened cause I wasn?t invited?hm
