

# Up To Me

## The Movieline

you did it before and youll do it again  
wasting all the time i spent  
you cut off your nose to spite your face  
and everything's such a daze  
'cause youre not focused and i know  
i know that my feelings will show  
wish it went back to the way it was  
but i know it cant be  
im running on empty, im runnin on empty  
remember what it meant to me  
its up to me, i realize now  
i guess its up to me, and ill win somehow  
i guess its up to....  
youre absent and i know it  
and its time to let me show it  
i just wish you were the same  
i guess its up to me  
and i know (lets go)  
changing faces and fading fast  
the way that you always have  
the piece of mind that felt like home  
is battered and broken and old  
and sometimes things, they pass you by  
and thats why im wondering why  
the easiest thing is to be weak  
and youre lazy so youll stay that way
