

Hills And Valleys

The Rocket Summer

I'm on top of the world
I can see it all around me
Such beautiful words
Leaving in oceans I can feel it
Never felt this before
Yeah, yeah I got a beautiful woman
We're coming off of the hard end of harder times
Gonna be starting something
That gets us straight up outta here I can fix it
Let me take us away
Yeah, we leave at night
We stay by day Say you're with me
There's gold ahead, there's golden dreams
And life's hills and valleys
Yeah, will you hold on with me? Let me take us
Let me take us away
All right We drove out to California
Straight through the desert of Arizona
Sweet Texas, I'll kiss you
Hope to be back but now I gotta leave you I can fix it
Let me take us away
Yeah, we leave at night
We stay by day Say you're with me
There's gold ahead, there's golden dreams
And life's hills and valleys
Yeah, will you hold on with me? Let me take us
Let me take us away I wouldn't know
Just how sweet this tastes now
No, if at first I did not go The bitter times, the bitter places
I'll stay and learn the new battles
But for now we're here Say you're with me
There's gold ahead, there's golden dreams
And life's hills and valleys
Yeah, will you hold on with me? Let me take us
Let me take us away
Let me take us
Let me take us away
Let me take us

Let me take us away
