

# Right or Wrong

## Down By Law

Under the sky you see me walk alone  
You wonder why I honestly don't know  
Decisions to be made ! I see the path  
Is it the way?Your right your wrong

Which will it be  
your right or wrong

How can I see  
your right or wrong

How can I know  
your right or wrong

Which way to go?awake at night thinking of all the things I have to do  
and things I should have done

Decisions to be made I see the path  
Is it the way?your right your wrong

How can I see your  
right or wrong

Which will it be  
your right or wrong

How can I know  
your right or wrong

Which way to go?I know the answers out there

If I keep looking, will I find it?

The answers in the night

And if I find it, what then? What then?your right your wrong

How can I see  
your right or wrong

Which will it be  
your right or wrong

How can I know  
your right or wrong

Which way to go?your right or wrong x 3
