Will You Still Love Me?

Kai

Will you still love me? I've got to know
Will you still want me? Will your love show?Tonight, I'll give my love to you and I'll give my heart to you
And I'll do the things you want me to, tonight, I'll hear all your fantasies
And I'll keep them near to me 'til we reach the morning sun'Cause I'm not the kind of guy that goes so easily
If I give my heart to you will you be there for me?Will you still love me? I've got to know
Will you still want me? Will your love show?
That there's no measure of how much to give
Without you beside me how could I live?If you don't love me
Girl, before I give you my heart and my soul
Will you still love me?
I just gotta be sure, listenGirl, let's both not move too fast 'cause we want our love to last
Beyond the morning sun and you know it's right
To wait on that distant star 'til we know just who we are
Still I know that you're the one'Cause I'm not the kind of guy that goes so easily
If I give my heart my to you will you be there for me?Will you still love me? I've got to know
Will you still want me? Will your love show?
That there's no measure of how much to give
Without you beside me how could I live?Baby will you still love me? Will you still kiss me?
Will you still want me? When I'm gone, will you miss, miss me?Will you still love me? I've got to know
Will you still want me? Will your love show?
That there's no measure of how much to give
Without you beside me ow could I live?
If you don't love me, will you still love me?
