You've Got the Love I Need

[Al Green](#)

Oh your beautiful to me
More than my eyes can see
Your hair blowing in the wind
I don't know why love should endStardust in the sky
I either love you or die
I gotta have you in my life
I really wanna make you wife[Chorus]
You got the love I need baby
You got the love I need baby
You got the love I need baby
You got the love I need babyOh my only friend
The only truth I know
Oh you taught me things about me
I'd never thought I'd knowDarling you've been there for me
Through the strangest of the times
Oh it must be meant to be
My darling love for my life[Chorus]Stardust blowing in the wind
Blowing in the wind
I don't know why love should end
I like loving you so
I like loving you
I'll never, never, never let you go[Chorus:Repeat x2]
