

# All Will Be Revealed

## Diamond Head

Don't look for satisfaction  
There's no meaning when you try  
If this is your intension  
I will be your alibi  
If you could feel the weight of my heavy load  
You will come to realize  
Walk a million miles in my shoes  
You will never find your paradise  
All will be revealed my friends  
What goes around comes around again  
Footsteps in the sands of time  
Loving you was my only crime  
Heal my condition  
Take this thorn from my side  
Lend me your religion  
I will be your alibi  
If you could feel the weight of my heavy load  
You will come to realize  
Walk a million miles in my shoes  
You will never find your paradise  
Chorus x 2  
All will be revealed my friends  
All my, my, my friends  
All will be revealed my friends
