Your sentry-men fall behind
Your sentry-men fall behindYou're wasting my time
Like mini crosswords do
You're breaking the line
You just tripped over(every time) Your sentry-men fall behind
(every time) Your sentry-men fall behindInto the sunspots we vanish awayYou're falling in time
Like penny dreadfuls do
Tripped over the line
That's two for flinchingI'd pay anyone twenty bucks just to do that
Cause everything in this place is freezing
except for the sound.
It's just a thing that I carry around.Into the sunspots we vanish awaySaw your face in the mirror said three times
Saw your face in the mirror said three times
