Your sentry-men fall behind
Your sentry-men fall behind You're wasting my time
Like mini crosswords do
You're breaking the line
You just tripped over (every time) Your sentry-men fall behind
(every time) Your sentry-men fall behind Into the sunspots we vanish away You're falling in time
Like penny dreadfuls do
Tripped over the line
That's two for flinching I'd pay anyone twenty bucks just to do that
Cause everything in this place is freezing
except for the sound.
It's just a thing that I carry around. Into the sunspots we vanish away Saw your face in the mirror said three times
Saw your face in the mirror said three times
