

Another Perfect Day

Tankard

I went to a football game
Anticipating victory
But they were so lame
Lost the game and slipped a notch
That's when I began to drink
I was close to dying
Watch it! I've had a bad day
My team had failed and I lost the day
World, I just hate you
I did my best to follow the rules
Watch it! I've had a bad day
My team had failed and I lost the day
World, I just hate you
I did my best to follow the rules
Freeway bound, what do I see
Fifteen cops behind of me
They must know I'm wasted
They got me, balls to the wall
Took my blood, license and all
Rotting here in jail
Watch it! I've had a bad day
My team had failed and I lost the day
World, I just hate you
I did my best to follow the rules
Watch it! I've had a bad day
My team had failed and I lost the day
World, I just hate you
I did my best to follow the rules
I got home and found a note
She left me for another guy
Just piss off and die - You bitch!
