

In This Moment

III NiÃ±o

Untie these ropes around my neck
Still I'm dropping to my knees
So conscious smiling discontent
Affecting lo que pienso de ti
(What I think of you)
Hasta ya

Never mind
Who's to say?
It's hard to rest when everybody's
On your case
On your own
It's hard to sleep when everything is
All concern
Who is right?
It's hard to breath when this intention
Feels so wrong
Feels so right
Feels so wrong
Never mind
(Never mind)

Las horas pasan nunca mas
(the hours pass no more)
Si yo me vengo
(if I come)
Tu te vas
(you leave)
Estas conciente sin querer
(you conscious without wanting to)
And now you hide yourself instead
Hasta ya

Never mind
Who's to say?
It's hard to rest when everybody's
On your case
On your own
It's hard to sleep when everything is

All concern
Who is right?
It's hard to breathe when this intention
Feels so wrong
Feels so right
Feels so wrong
Never mind

Never mind
Who's to say?
It's hard to rest when everybody's
On your case
On your own
It's hard to sleep when everything is
All concern
Who is right?
It's hard to breathe when this intention
Feels so wrong
Feels so right
Feels so wrong
Never mind
