

People Change

Nick Lowe

Story book love, made for one another
Now she treats you just like a brother
And you dont know what youve done
Or even how to make it right
Thats the long and short of it
Prepare yourself for it or get bit
People change
Save your tears, you're gonna need em
Because for certain, you're gonna be hurtin'
If you dont get hip to a simple fact of life
Thats the long and short of it
Prepare yourself for it or get bit
People change
People change, people change
People change, people change
Now you say those times you had
Whenever never that many
Just be thankful you had any
And cut yourself a slice of reality
Thats the long and short of it
Prepare yourself for it or get bit
People change
Thats the natural thing to do
Prepare yourself for it or get bit
People change
They always have and so will you
Prepare yourself for it or get bit
People change
Thats the long and short of it
Prepare yourself for it or get bit
People change
Prepare yourself
