Fuct up Kid

Mest

The words you say I'll never listen to
'Cause if I did I'd be just like you
But your my enemy and soon your gonna see
You gotta be yourself to be happy
'Cause you're not, you're notFuct up visions in my head
I'm a fuct up kid is what they said
But at least I know all the things that I want
And it's all the things I've got'Cause you're so quick to point the finger
You act like your shit don't linger
It feels good when you see someone else in a rut
It gives you confidence it makes you happy but
You're not, you're notFuct up visions in my head
I'm a fuct up kid is what they said
But at least I know all the things that I want
And it's all the things I've gotYou act as if you've seen my way
But I know that you won't leave today
'Cause change is what you fear the most
And the end is getting close, and the end it getting close
And the end is getting closeFuct up visions in my head
I'm a fuct up kid is what they said
But at least I know all the things that I want
It's all the things I've gotFuct up visions in my head
I'm a fuct up kid is what they said
But at least I know all the things that I want
And it's all the things I've got, and it's all the things I've got
And it's all the things I've got
