

# Til It's Gone

[Kenny Chesney](#)

Got nowhere to go and all night to get there  
But I'm going there with you  
Tonight we're running on luck  
If we're gonna use it all up  
There's only one thing left to do Gonna take a deep breath and hold it in  
Twirl you around 'til my head spins  
Kiss that lipstick and wear it thin 'til it's gone, 'til it's gone  
Break every rule we ever learned  
Kick back and watch the big wheels turn  
Light up the night and let it burn 'til it's gone  
'Til it's gone, 'til it's gone You look way too good  
And this feels way too right  
It'd been way too long to start  
And it's sure worth drinking to  
So baby here's to you  
I don't wanna waste a drop Gonna take a deep breath and hold it in  
Twirl you around 'til my head spins  
Kiss that lipstick and wear it thin 'til it's gone, 'til it's gone  
Break every rule we ever learned  
Kick back and watch the big wheels turn  
Light up the night and let it burn 'til it's gone  
'Til it's gone, 'til it's gone One life, one chance  
One ticket to the big dance  
You and me still holding on  
Right down to the last song Gonna take a deep breath and hold it in  
Twirl you around 'til my head spins  
Kiss that lipstick and wear it thin 'til it's gone, 'til it's gone  
Break every rule we ever learned  
Kick back and watch the big wheels turn  
Light up the night and let it burn 'til it's gone  
'Til it's gone, 'til it's gone  
Yeah, 'til it's gone You're sure worth drinking to  
Baby, here's to you  
I don't wanna waste a drop I'm gonna drink it all up  
'Til it's gone, 'til it's gone, it's gone
