Love You More

Kream

I just wanna feel ya (oh, oh) (oh yeah, yeah)

Walk away into the light walk away, we'll make this right walk away into the light 'cause your heart never lies

You say you've got the love So show me what it's for And baby I will love you more You say you feel the love So show me what it's for And baby I will love you more

You know we're walkin' together
We gonna walk now, (oooh yeah)
Walk away into the light
Walk away, we'll make this right
Walk away into the light ('cause, yeah)

You say you've got the love So show me what it's for And baby I will love you more You say you feel the love So show me what it's for And baby I will love you more

I just wanna feel 'ya (oh, yeah)
I want you (oh oh oh), yeah, yeah
I just wanna feel you, feel you
I just want you here every night
I just wanna lay down next to you
Show me that your heart never lies
