## Morcheeba

Waiting in the club lounge  
I slot in so systematically  
I wanna smash it to pieces  
Release this hatred inside of me  
You know you fill me with passion  
But I just act apologetically  
I'm gonna miss you in fashion  
All ashen faced with my deceitSao Paulo  
Why am I bringing me down?  
Sao Paulo  
If I drink any more I will drown  
Sao Paulo  
Why can't I fight truth decay?  
Sao PauloMy life is just one big cliché  
Another stain on my passport  
I wanna travel so futuristically  
I just wish I could beam up, team up  
And soon be on my way  
You told me we'd go to Rio  
And you said it so charismatically  
I know it's me that's the nightmare  
So fight fair or have some decencySao Paulo  
Why am I bringing me down?  
Sao Paulo  
If I drink any more I will drown  
Sao Paulo  
Why can't I fight truth decay?  
Sao Paulo  
My life is just one big cliché  
Sao Paulo  
Why am I bringing me down  
Sao Paulo  
If I drink any more I will drown  
Sao Paulo  
Why can't I fight truth decay?
