Breathe

Weather Maps

(Verse 1)
Smoke screen out, take a good look now
I can't stop if you don't go.
If waves don't crash, and go side to side
i'll be facing in the undertow.

(Chorus)
And I can't breathe in if i can't breathe out,
I can't breathe in if i can't breathe out.
I can't breathe in if i can't breathe out,
I can't breathe in anymore.

(Verse 2)
Time that you missed i'll make up,
if i can't be out in the wings.
And my heart sinks when it thinks you're up,
it's my taste for running things.

(Chorus x2)

And I can't breathe in if i can't breathe out,
I can't breathe in if i can't breathe out.
I clench my jaw if I saw you close,
I can't breathe in if i cant breathe out

Breathe out, breathe out, breathe out, breath out...
