Acropolis

DJ Hellfire

Is it something I can see
Is it something I can touch
Is it something I can feelIs it something I can hear
Is it something I can smell
Is it something I can trust
YeahBefore the surface dries out
Before the palace burns down
Before your world is overwhelmed
Before the surface dries out
Before the palace burns down
Before your world is overwhelmedIs it something I can do
Is it something I can learn
Is it something I can findIs it something I can fix
Is it something I can solve
Is it something I can proveBefore the surface dries out
Before the palace burns down
Before your world is overwhelmed
Before the surface dries out
Before the palace burns down
Before your world is overwhelmedYou scream out
I hear that
Our time is running out so fast
Wings burning
I'm fallin'
Our time is running out so fastIs it something I can see
Is it something I can touch
Is it something I can feelIs it something I can hear
Is it something I can smell
Is it something I can trust
YeahBefore the surface dries out
Before the palace burns down
Before your world is overwhelmed
Before the surface dries out
Before the palace burns down
Before your world is overwhelmedYou scream out
I hear that
Our time is running out so fast
Wings burning
I'm fallin'

Our time is running out so fast
