Never Let You Go

Bloodstone

My mind has been blown to bits
I was just about to call it quits
An everyday problem
I didn't stand a prayer
And you came along
And hope was there

There have been times
When I thought that I
Could turn right up and
Break down and cry

You gave me your hand
You made me stand
You said, be a man
Yes, I know you can

And each and every day
You never failed to say
With me, always stay
Please don't go away

And in return
You know I never will
You know I never will
Yes, I never will, oh, oh

Never, never let you go
(Never let you go, baby)
(Never let you go, baby)
(Never let you go, baby)
(Never let you, no, never, never)
(Never) never (let you go)

I count raindrops on a rainy day
Just keep you, my love
From walking away

I want you to understand
I do whatever I can

Just to stay your man
I'm in love

Cause each and every day
You never failed to say
With me, always stay
Please don't go away

And in return
You know I never will
You know I never will
You know I never, never
Never, never, never, never

(Never let you go, baby)
(Never let you go, baby)
(Never let you go, baby)
(Never let you, no, never, never)
(Never let you go)

(Never let you go, baby)
(Never let you go, baby)
(Never let you go, baby)
(Never let you, no, never, never)
(Never let you go, baby)

(Never let you go, baby)
(Never let you go, baby)
(Never let you go, baby)
(Never let you, no, never, never)
(Never let you go, baby)

(Repeat with ad libs to end)
