

# Watch the North Wind Rise

## Hot Tuna

Up in the morning watch the north wind rise  
Bringin' fire down from the skies  
Hey, we got a long way to go  
So keep on lovin' and make it slow We're goin' home  
Won't be long, hearin' my song  
That lovin' you ain't  
Never done no wrong Well, night time falls like the crack of doom  
Fills the sky with a shinin' moon  
Silver siren just got to please  
Well, fuel me with lovin' down in my knees We're goin' home  
Won't be long, hearin' my song  
That lovin' you ain't  
Never done no wrong Well, babe be mine one more time  
Run your hand down my spine  
If you say we've got to go  
Take some time for just one more Well, up in the mornin' watch the north wind rise  
Bringin' fire down from the skies  
Hey, we got a long way to go  
So keep on lovin' and make it slow We're goin' home  
Won't be long, hearin' my song  
That lovin' you ain't  
Never done no wrong Well, babe be mine one more time  
Run your hand down my spine  
And baby, well, if you say we've got to go  
Take some time for just one more Well, babe be mine one more time  
Run your hand down my spine  
And mama, well, if you say we've got to go  
Take some time for just one more
