When Animals Attack

Institute

These nights are getting longer
Seems like I've always been awake
There is danger in the houses
A nemesis in shape
She took my metal bones
Placed them where I could feel again
You know how bad things get
When animals attack, you need fire
When animals attack, you need fire
Nine lives for the madmen
Trouble for the sane
What is good for your survival
May not be good for your health
She took my mental bones
She took my soul and everything
You know how bad things get
When animals attack, you need fire
When animals attack, you need fire
When animals attack and
When there's no way out
When there's no way out
When there's no way
The more I need the less I know
How I will try to need less
Try to need less
She cooked my mental bones
She took my soul and everything
You know how sad things get
When animals attack, you need fire
When animals attack, you need fire
When animals attack
When animals attack
When there is no way out
When there is now way out
When there is no way out
When there is no way
