Stop Me

Planet Funk

Looking for the soul in a plastic world
Looking for the skin on my plastic girl, oh yeah
Champagne smile and a camera flash
Bubblegum lips in a bubble bath, oh yeah

Won't you stop me, stop me, stop me

It wasn't my dream but it fits like a glove
Nano narcotic bringing peace and love, oh yeah
Could you help me scratch my electric itch
It makes me look good but it's starting to make me twitch

Won't you stop me, stop me, stop me, stop me,
Stop me, stop me, stop me

Sending me the message
It's crawling underneath my skin
Sending me the message
It's crawling underneath my skin
Sending me the message

Looking for the soul in a plastic world
Looking for the skin on my plastic girl, oh yeah
Champagne smile and a camera flash
Bubblegum lips in a bubble bath, oh yeah

Won't you stop me, stop me, stop me

Sending me the message
It's crawling underneath my skin
Sending me the message
It's crawling underneath my skin
Sending me the message

Won't you stop me
Won't you stop me
Won't you stop me, stop me, stop me, stop me,
Stop me, stop me, stop me
Won't you stop me
