

# Colours in the Sky

## Miami Horror

Right there, just between the height of  
My friend, something left me thinking  
Stand on and focus on the fire wax  
Stand back and look a little higher  
SO MANY COLOURS FILL THE SKY  
So many good things to come  
If only they'd always caught my eye  
It's like an explosion  
So slow, I skipped over the fall line  
Lay back and imagine it's all mine  
Make plans to keep them on my side  
Little did I know that I'll be alright  
SO MANY COLOURS FILL THE SKY  
So many good things to come  
If only they'd always caught my eye  
It's like an explosion  
Stand so lost, my eyes so blind  
It's just that burning change of mind  
Thinking about the days gone by  
Again and again  
SO MANY COLOURS FILL THE SKY  
So many good things to come  
If only they'd always caught my eye  
It's like an explosion  
SO MANY COLOURS FILL THE SKY  
So many good things to come  
If only they'd always caught my eye  
It's like an explosion
