Gucci Mane

White girl, white girl, shy girl, shy girl
White girl, white girl, night girl, night girl

[Verse 1 : Gucci Mane]

Im from East Atlanta where they ten out fangas
Got a white girlfriend she be acting up her anus
She can get you knocked out with a point of a finger
And she dont talk to strangers, she got red tangas
Got coke in the strange and the lawyer with aint her
So you hard so you soft, she got all kinds of angles
And its California kush she got me talking like Im Done (Done)
Playing with my money then Im calling my attorney
And them people cant believe that Gucci man got jungle fever
And I think I love this girl because her price is hella cheaper
And like lu said its better to loose a love than love a leaver
Running around town with them choppers about the same size...
