Livinâ€™ to Ride

Redlight King

Friday nights when you're in the mood
With the band out runnin', got shit to prove
Dancin, dyin' in the dark
Got the tipped off from the bodyguard
Battle, Battles from the grave
Though I don't misbehave
Settle down, settle down
See son, you're already deadDaddy don't care if you rock and roll
Momma's drinkin' Moonshine all alone
Tommy don't know what his brother's done tonightSunrise you brought me back
Live to ride againFather, Son, and the Holy Ghost
Gonna play your cards, you're cuttin' it close
Leave em, lie it, lay it down
Got one more, gotta get a hit.That mind's on cruise control
so blind, can't find a soul.
Settle down, settle down
See son, you're already deadDaddy don't care if you rock and roll
Momma's drinkin' Moonshine all alone
Tommy don't know what his brother's done tonightSunrise you brought me back
Live to ride againShow me where the water flows
Show me where the water flows
Show me where the water flows
Show me where the water flowsSunrise you brought me back
Live to ride againSunrise you brought me back
Live to ride againLivin' to rideLivin' to ride
