

# Party People

## Sammy & Skate

Turn the lights down  
It's about that time  
Easy go I'll make that bass sound fine  
No matter what the day  
It no matter whatcha age  
If you like to party  
It's about that time  
Everybody clap  
Where my party people at?  
Take one step back  
Where my party people at?  
Jump to the right  
Naughty at the side  
Hands up high  
Where my party people at?  
Everybody clap

It ain't no matter whatcha age  
You can party when you're old  
And if you wanna party some more  
Welcome to the show  
You know that we tanked up  
Don't tell my mama  
'Cause if she happens to find out  
We gonna have some drama  
Right now I ain't worry about a goddamn thing  
We gon get it popping like bottles of champagne  
Party all night, let the whole town know  
And I'ma hit the hook, watch the whole crowd

Turn the lights down  
It's about that time  
Easy go I'll make that bass sound fine  
No matter what the day  
It no matter whatcha age  
If you like to party  
It's about that time  
Everybody clap  
Where my party people at?

Take one step back  
Where my party people at?  
Jump to the right  
Naughty at the side  
Hands up high  
Where my party people at?  
Everybody clap

But you just wanna get it bumping  
Come on and bop your head  
There's no time to be slumping  
Indeed it might be too late  
But it's time to get grooving  
We ain't drinking water in a party Bobby Boucher  
And I'm only being honest when I say that it is time  
And there's no holding back  
It's the beginning of the night  
So go ahead turn the lights down  
And listen to this new sound  
We party all night  
Long waking the whole town

Turn the lights down  
It's about that time  
Easy go I'll make that bass sound fine  
No matter what the day  
It no matter whatcha age  
If you like to party  
It's about that time  
Everybody clap  
Where my party people at?  
Take one step back  
Where my party people at?  
Jump to the right  
Naughty at the side  
Hands up high  
Where my party people at?  
Everybody clap

To the beat one time  
Going out late  
I'll be home some time  
This is really some special  
Turn it up a whole new level  
Together we're having fun

No time to be the rebel  
Catch me out of California  
Soaking up the sun  
Might be sipping on some rum  
We just tryna have some fun  
We tryna get it popping  
Party never stopping  
Everybody dancing and chugging  
So don't be getting caught watching

Turn the lights down  
It's about that time  
Easy go I'll make that bass sound fine  
No matter what the day  
It no matter whatcha age  
If you like to party  
It's about that time  
Everybody clap  
Where my party people at?  
Take one step back  
Where my party people at?  
Jump to the right  
Naughty at the side  
Hands up high  
Where my party people at?  
Everybody clap

Everybody clap  
Everybody clap  
Everybody clap  
Everybody clap

Turn the lights down  
It's about that time  
Easy go I'll make that bass sound fine  
No matter what the day  
It no matter whatcha age  
If you like to party  
It's about that time  
Everybody clap  
Where my party people at?  
Take one step back  
Where my party people at?  
Jump to the right  
Naughty at the side

Hands up high  
Where my party people at?  
Everybody clap
