Absent Friends

Jimmy Nail

I didn't believe all the things
That I'd heard about you
I couldn't believe all the things
That I'd heard were trueAnd then you took me for a ride
I started on my downward slide
You wouldn't believe all the measures
That I've been through
I should've believed
All the things that I'd were trueI put my coat as the time-bell rings
I give a shiver as the day beginsYou put your spell on me
And I can't shake you free
So let's drink to absent friendsMy insides are crying out as I walk alone
A body without a soul looking for a homeAnother hold in my expensive shoe
Another shiver as the rain comes throughYou put your spell on me
And I can't shake you free
So let's drink to absent friends
You put your spell on me
And I can't shake you free
So let's drink to absent friendsBetween the benches nd the swinging door
I've walked that route a million
Times or more
So just remember, when you look away
I climb a mountain every single dayYou put your spell on me
And I can't shake you free
So let's drink to absent friends
You put your spell on me
And I can't shake you free
So let's drink to absent friends
