

# Black Wings 4 a Dark Angel

## B2D

### [Verse 1]

How long since it all started  
But by the end, there is broken promises and broken hearts  
Victim of my past, can't control my dick  
You know I loose it when I'm mad  
Try to leave it all behind, so my life is movin' fast  
I'm the hustle for my money  
I'm the muscle for my team  
Yes I'm in the lottery lot  
But it's not what it seems  
My go's are like crack  
I reform like a vien  
And I probably won't stop until I'm living in my dreams  
Catch me thuggin' in the street  
Where I make my ends meet  
And I still keep my faith  
And the pistol by my seat  
They say, demons have horns  
I know, killas' will go deep  
The booze is like my church  
And this is how I preech  
My words will touch your soul  
Make you stand up on your feet  
Have my back when I'm fallin'  
Have my back when I'm down  
Cause karma like a boomerang  
That shit'll come back around. My Nigga

### [Chourus]

What happend to my friends  
When they drunk, they all struggle  
When the lord got my back  
There's nothing I can handle  
So I'm makin' one wish  
Before I blow out this candle  
Come get me when I die  
Get black wings for a dark angel

### [Verse 2]

We boosters ballin', get money outta fast rate

Your wife kicked you out

So I welcomed you into my place

You had some rhymes

I had some rhymes

Put out a mixtape

Drop Fucka Drop

It was sellin' like some hot cakes

Tried to rob a bank

You did it sloppy so you got a case

Put money on your books

Takin' money out my safe

Well, I'm screaming "Free my Nigga!"

You talkin' to the jinx

I heard you testafine

They played it on the tapes

They threaten me with life

And I still wouldn't break

I've always been your friend

I put you in your place

Something smellin' like a rat

And you got riskers on your face

I heard you reachin' out

Well partner it's too late

[Chorus]

What happen to my friends

When they drunk

They all struggle

When the lord got my back

There is nothin' I can't handle

So I'm making one wish

Before I blow out this candle

Come get me when I die

Get black wings for a dark angel
