

Don't Let It Get You Down (Radio Version)

Echo & The Bunnymen

You're really something else
Made me forget myself
My lights came on When I got to you
You were almost through
You're almost gone Don't let it get you down
Don't let it get you down
The moon and the stars
Goes crashing round
Don't let it get you down An angel walked amongst us
Tried but couldn't love us
Something's wrong since
You've gone you know There's nothing and
No one to hang love on
So tell me how it feels
Tell me how it feels
To touch the flame Tell me who I am
Tell me who I really am
What's my name Don't let it get you down
(When you're alone)
Don't let it get you down
(When you're alone) The moon and the stars
Goes crashing round
(When you're alone)
Don't let it get you down Don't let it get you down
(When you're alone)
Don't let it get you down
(When you're alone) The moon and the stars
Goes crashing round
(when you're alone)
Don't let it get you down Don't let it get you down
(When you're alone)
Don't let it get you down
(When you're alone) The moon and the stars
Goes crashing round
(When you're alone)
Don't let it get you down God's above us and Jesus loves us
If God's above us and Jesus loves us
If God's above us
(If you want it, you can get it) And Jesus loves us

(If you want it, you can get it)
If God's above us
(If you want it, come on get it) And Jesus loves us
(Right now)
If God's above us
(If you want it, you can get it) And Jesus loves us
(If you want it, you can get it)
If God's above us
(If you want it, come on get it)
And Jesus loves us
