# Family Tree

## Barnaby Weir

Dancin' in the living room cuttin' up a rug
Dancin' with a baby looks more like a hug
Livin' in a house made of saw mill wood
"Roll over Beethoven" never sounded so good
Come on baby, baby let's go
Where we get the money honey I don't know
One more baby's alright by me
We'll just add another limb to the family tree
Well raising up babies is our new sport
You're one day late and I'm a dollar short
Now maybe it was planned maybe it was a goof
But a cat just has to dance on a hot tin roof
Come on baby, baby let's go
Where we get the money honey I don't know
One more baby's alright by me
We'll just add another limb to the family tree
Well the lawnmower's broken, the tax is due
And if I find another tick I'm gonna come unglued
We got hand me down clothes, hand me down shoes
We got the big belly momma here we go again blues
Come on baby, baby let's go
Where we get the money honey I don't know
One more baby's alright by me
We'll just add another limb to the family tree
Baby, whoa, whoa let's go
Where we get the money I don't know
One more baby alright's by me
It's alright, it's alright now baby
We'll just add another limb to the family tree
Oh we'll just add another limb to the family tree
We'll just add another limb to the family tree
