

Unconscious Power

Iron Butterfly

We all want to prepare you
The unbelievable is going to happen
It will linger in your mind forever
Let this carry you wherever, wherever Triggering the unconscious power Removing all your inhibitions
Releasing complete freedom of thought
Sensations of every sense will prepare
With this you will see every thing Triggering the unconscious power Triggering the unconscious power I say to
you nothin' for now
For now we know all
We know all
We know all
We know all
