

# Clean Water

## Joss Stone

New life, first breath  
Clean water, stress less  
Bright lights, no test  
So you outta get dressed Just so you know, you're blessed  
Move on, forget the rest  
Put away your clocks, it's a brand new day  
It's time to clean your head  
Get out of bed instead  
Let the sunshine in, don't waste your day Today is the day you'll find your love is in you  
And it's been right there the whole time  
Today is the day you realize you can do  
Whatever's on your mind New life, first breath  
Clean water, stress less  
Bright lights, no test  
So you outta get dressed  
Feel right, your at soul rest  
Check your order, manifest  
Insight, no regrets  
Love your life, go on rest Just so you know, you're blessed  
Move on, forget the rest  
Put away your clocks, it's a brand new day  
It's time to clean your head  
Get out of bed instead  
Let the sunshine in, don't waste your day Today is the day you'll find your love is in you  
And it's been right there the whole time  
Today is the day you realize you can do  
Whatever's on your mind  
Today is the day you'll find your love is in you  
Oh, and it's been right there the whole time  
Today is the day you realize you can do  
Oh, whatever's on your mind Now let's get carried away  
With the love that you made  
Hold up your head, be strong  
Get out of bed, do what you said  
You can get through the storm  
Now let's get carried away  
With the love that you made  
Hold up your head, be strong, be strong  
Now let's get carried away

With the love that you made  
Hold up your head, be strong  
Get out of bed, do what you said  
You can get through the storm  
Now let's get carried away  
With the love that you made  
Hold up your head, be strong, be strong
