

# This Is Gravity

## The Strange Familiar

Please don't go  
Don't go away  
Cause you and I were meant to be  
It's more than love to me  
Oh, this is gravity

Don't deny what's in your soul  
When you left, you left a hole in my heart  
There's no other choice I'd make  
You're a risk I have to take  
My mind's made up

Please don't go  
Don't go and change  
Don't ever change a thing for me  
Please don't go  
Don't go away  
Cause you and I were meant to be

I can't fight the way I feel  
Surrendering, let fate take the wheel  
Can't you see I'm not afraid?  
Cause I know what it costs to have already lost you  
It's more than love to me  
A wave upon the sea  
Oh, this is gravity

Please don't go  
Cause you and I were meant to be  
Please don't go  
Cause you and I were meant to be  
It's more than love to me  
Oh, this is gravity
