

God, Make Up Your Mind

Cold War Kids

Backseat of your family station wagon

Listenin' to mom

100 years of solitude

And only 12 years old

God make up your mind

God make up your mind

Do you wanna play fair

Should I take what's mine?

Mama's callin' out

Look at the grand canyon

Camilla couldn't care less

Gazin' to the home

Your stomach feels the emptiness

God make up your mind

God make up your mind

Do you wanna play fair

Or should I take what's mine?

Like everyone else

From New York to New Orleans

Played alphabet

Kansas to Boise

Won a battleship

Memorize the capitals

Crossword puzzles

Drew a picture of a cat

Layin' dead in the street

Daydream about Maria back in California

Elephant in your brain

Remindin' you you've got to make a choice

Wraps his arms around ya slow

Cause you tense up like a [?]

God make up your mind

God make up your mind

Do you wanna play fair

Or should I take what's mine?

Like everyone else

Why am a teacher on the street sign
Has done so much more than politicians

Than musicians

You wanna help someone

You gotta be a no one

That's what I figured out

The cat in the street meant

You gotta make up your mind

Make up your mind

Make up your mind
