Kiss Me Goodbye

leah andreone

Your arms hold me aimlessly
I can feel you letting me goDon't sing me a lullaby
Don't pretend to care
Finish up and get out of here
Indulge yourselfKiss me goodbye Judas
Mangled songs, words are strained
Your picture's gone I'm lost in the frame
Kiss me goodbye, I believed now I'm betrayed
The kiss is vital before you walk awayOne, two, three, four
You stab, I plead for more
Don't you see I'm still alive?Your sword is double-edged
Your stalling makes it worse
I can't take this
Please, push it deeper, deeper, deeperKiss me goodbye Judas
Mangled songs, words are strained
Your picture's gone I'm lost in the frame
Kiss me goodbye, I believed now I'm betrayed
The kiss is vital before you walk awayGive in to your filth
You've always made love to yourself
Deflower my memories and
I'll memorize your last breathIgnore the weight I've lost
Those are stars you see in my eyes
You're flattered
Were you always this blindGet your business done
Show me your lowest low
Toxic waste, isn't this fun?
Prey on this, well, I'll be damnedKiss be goodbye Judas
The dance is done so let it rain
Take your faces take your shame
Kiss me goodbye, I believed now I'm betrayedThe kiss is vital before you walk away
I believed now I'm betrayed
The kiss is vital before you walk away
I believed
