Brave

Sumo Cyco

I'm loosing all control again
A paradox that never ends
I'm bound to what they've made of me
And tied to their authorityEmpty shell
Empty room full of nothing
Substance please
Like some disease
I can't feel anythingVoid is a man
Who has time on his hands
And he's gotta plan
To swallow the worldSo trudge through the mire
I'm weakened
When everything seems so impossibleLoosing all control again
A paradox that never ends
I'm bound to what they've made of me
And tied to their authority
I'm fighting off the demons
But they just keep on winning
Only I know how to brave what's inside of me (Brave what's inside)
How to brave what's inside of me (Brave what's inside)
Brave what's inside of meHollow head
Hollow point pointing at me
Do you dare?
As if I care
I can't feel anythingFuture's a place
In a dead mental case
With no memory trace
To prove it's anythingSo trudge through the mire
I'm weakened
When everything seems so impossibleLoosing all control again
A paradox that never ends
I'm bound to what they've made of me
And tied to their authority
I'm fighting off the demons
But they just keep on winning
Only I know how to brave what's inside of me (Brave what's inside)Anchor
My ship down to the depths of the deep blue sea
Redefine in your mind
Triumph and try and find

Something pure for meI'm loosing all control again
A paradox that never ends
I'm bound to what they've made of me
And tied to their authority
I'm fighting off the demons,
but they just keep on winning
Only I know how to brave what's inside of meLoosing all control again
A paradox that never ends
I'm bound to what they've made of me
And tied to their authority
I'm fighting off the demons,
but they just keep on winning
Only I know how to brave what's inside of me
(Brave what's inside)
How to brave what's inside of me
(Brave what's inside)
Brave what's inside of me
(Brave what's inside)
Brave what's inside of me
(Brave what's inside)
