

# Fall Out

## Don Pullen

This, this is brought to you  
By the K-1, Emergency Broadcasting System  
In the, in the event of an actual emergency  
    You will be told to fall out  
    S.I. rockin' it, N.Y. rockin' it  
    S\*\*\* we stay poppin' it, 4-5 rockin' it  
    Game stay on top of it, lame, just the opposite  
It's no thang, when I "bring the pain" ain't no stopping it  
    Who the f\*\*\* is this? About to bring the ruckus  
This just ya boy, I'm some on other s\*\*\*, my n\*\*\*\*, take a puff of this  
    Piff man, I'm loving this, is Staten Island up in this?  
    B\*\*\*\*, like we running it, and somebody wanna public  
        Turn it up a bit, so my thugs can thug a bit  
        If I got my brother get, K, we got another hit  
        L\*\*\*\*\* please, where y'all puffin' them trees?  
I'm damaging M.C.'s, oxygen, you can't breathe, fall  
    Fall out, yeah, I'm going all out  
    Hold on, man, what's really going on  
And when I'm coming, a hundred miles and running  
    Keep back, y'all ain't got it like that  
    Fall out, yeah, I'm going all out  
    Hold on, man, what's really going on  
And when I'm coming, a hundred miles and running  
    Keep back, y'all ain't got it like that  
Here we go again, h\*\*\*-smoke, blowing in the wind  
    Cops chasing, wanna throw him in the pen  
And the day he leave the game, yo, he going in the Benz  
    On them 24's looking like he rolling on the rims  
All daying, know what I'm sayin', I'm staying up to par, parleyin'  
    While y'all hating, I'm splitting this cigar  
Man, it's nathan, all y'all do is aim and start spraying  
'Cause tonight's the night, and me and my n\*\*\*z ain't playing  
    Y'all done did it now, another critic kicked Tical  
    Alotta n\*\*\*z mad 'cause I ain't fold like they figure now  
        Let me put my fitted down, spit around  
Listen when this hit the ground, y'all gon' hear the difference now  
  
    Here I got that miracle, sickest individual  
    Flow that's so original, see this is what they meant to do

It's not an act, it's all actual fact  
The kid is back, making tracks, catch panic attacks, and fall  
    Fall out, yeah, I'm going all out  
    Hold on, man, what's really going on  
And when I'm coming, a hundred miles and running  
    Keep back, y'all ain't got it like that  
    Fall out, yeah, I'm going all out  
    Hold on, man, what's really going on  
And when I'm coming, a hundred miles and running  
    Keep back, y'all ain't got it like that  
    Aww s\*\*\*, ain't this about a b\*\*\*\*  
    Give a f\*\*\* about a b\*\*\*\*, I'm more about a grip  
    And I'm all that a n\*\*\*\* got, the more he gotta get  
    Feeling like a million dollars, buyin' million dollar s\*\*\*  
    What y'all dealing with, one shot killing it?  
    Stop changing my style, when y'all stop stealing it  
        Meth is chillin' like milk top killing  
    If it ain't got no real in it, I'm probably not feeling it  
        I'm deadin' ya kids and burn another blizz  
        What it is, what it is, Wu-Tang is for the kids?  
        So n\*\*\*\*z please, why y'all puffin' them trees  
    I'm damaging M.C.'s, oxygen, they can't breathe, fall  
        Fall out, yeah, I'm going all out  
        Hold on, man, what's really going on  
    And when I'm coming, a hundred miles and running  
        Keep back, y'all ain't got it like that  
        Fall out, yeah, I'm going all out  
        Hold on, man, what's really going on  
    And when I'm coming, a hundred miles and running  
        Keep back, y'all ain't got it like that  
    Rest in peace Ol' Dirty B\*\*\*\*\* a.k.a Dirt McGirt
