Jenny Come Back

Restless Heart

I still hear the glass that shattered
When she slammed the door
I knew inside it was foolish pride
And nothing more but I let her walk away
When I knew the words to say
Jenny come back, I must've been crazy
I don't know what made me, treat you like that
Jenny come back, the love that you gave me
Is all that can save me, Jenny come back
Just a crazy fight where nobody was right
And nobody was wrong but this time around nobody backed down
And now she's gone, and I'm wishin' it was just a bad dream
Prayin' that the phone will ring
Jenny come back, I must've' been crazy
I don't know what made me, treat you like that

Jenny come back, the love that you gave me
Is all that can save me, Jenny come back
Jenny come back
I made a mistake, gonna do what it takes
Jenny come back
Gonna make it right I need you tonight
Jenny come back
Jenny come back, I must've been crazy
I don't know what made me, treat you like that
Jenny come back, don't leave me lonely
I need you to hold me, Jenny come back
Jenny come back
Jenny come back
Oh, Jenny come back
