

# Endless Talk

## WILD FLAG

Hey, you're a little bit ruthless  
Claws out and wild  
You wore me down to toothless  
So gummy and mild  
It's all we have so we talk all of the time  
You wind me up and I go  
Cover my eyes 'til your sneer looks like a smile  
All bark, no bite, yeah I know, I know  
You, you're a rusty little razor  
With a past that gleamed  
Always trying to cut me  
On your dull machine  
It's all we have so we talk all of the time  
You wind me up and I go  
Cover my eyes 'til your sneer looks like a smile  
All bark, no bite, yeah I know, I know  
Words, words your enemy  
Teardrops are left  
Can't speak, can't see  
Filled with regret  
It's all we have so we talk all of the time  
You wind me up and I go  
Cover my eyes 'til your sneer looks like a smile  
All bark, no bite, yeah I know, I know  
Oh, come on baby  
I need a little more shine  
How did our light get so low?
