Lonely Boy

Vincent Gallo

Saw a face
From my childhood days
A smiling girl...not a friend...
Milky red funny face...smiling smiles
Mother...and son...
Stood by a dad
Daddy
You sure eat a lot of snacks
Now & then...I start to cry
Not the tears
But when I was...or when I was
Like a colored sky...coloring
Wish the sun...would stand still
All forgotten...yesterdays
School days remind me of
When I was a boy
All my life I've been this lonely boy
Doo doo
