

Uh-uh

Mozella

(Verse 1)

oh wow what a surprise you're out all night
i neatly threw your stuff on the lawn, hope that's alright
you tell me to run; i run
you tell me to jump; i jump
not even your number one, you're treating me like a punk
and i can't waste one more breath
cause i ain't got nothin' left for you
i'm not your fool

(Chorus)

baby don't run away from me the table's turned around
this ain't how it's got to be this little girl you've found
don't even throw a fit has finally stood her ground with you
come on just wait a sec uh-uh
can we talk? uh-uh
won't you listen? no way
please, please uh-uh
come on no, no
come on uh-uh

(Verse 2)

i'm taking an emotional vay-cay for my health without you i'll be alone, no i don't want you to leave
you somehow manage to steal all my spiritual wealth let's shop for clothes on melrose, i'll even buy you a ring
you tell me to go; i go don't go
cause no, no your even through don't go
i'm thinking i'm other hoes no, no
this ain't what i signed up for baby
cause i can't waste on more breath why?
cause i ain't got nothin' left for you,
i'm not your fool,

(Chorus)

baby don't run away from me the table's turned around
this ain't how it's got to be this little girl you've found
don't even throw a fit has finally stood her ground with you
come on, just wait a sec uh-uh

can we talk? uh-uh
won't you listen? uh-uh
please, please uh-uh
come on uh-uh

come on uh-uh
(Bridge)
day after day
the same old mistakes
i gave you your notice
now give me my space
i'm done with these games
now get out my way, hey-hey-hey-ey
oh wow what a surprise, you're out all night
(Chorus 2)
baby don't run away from me the table's turned around
this ain't how it's got to be this little girl you've found
don't even throw a fit has finally stood her ground with you
come on, just wait a sec uh-uh
can we talk? no way
won't you listen? uh-uh
please, please go away!
come on no, no
come on uh-uh

don't you love me? no?
don't i make you happy? no, no
please, baby uh-uh
come on come on
come on come on
just a minute no, no
baby, listen no, no
can i hit it?! no!!
come on, come on uh-uh
