No Question

Allure

Concentrate, listen to me, while you do me Should I surrender when you pursue me? You think a man don't have heart and soul When a hand's that good, anybody will fold It's like poetry in motion But the heart regulates the devotion Love is floatin' in a sky blue ocean Think about it Feel the motion, young queen It reminds me of a smoothed out movie scene Two bodies intertwined on the screen Everybody make love in their dreams, but this is real, know I mean Passion is the way of the world Electricity when boy meets girl And making love is the key A burning flame that will last eternally You should know that I'm here for you As long as you see me through I would give all I have just to be with you Don't you see honey, it could be me and you I really look forward to being with you When you're not around I don't know what to do You give me a feeling that I can't control You take my heart and soul Never question what I do 'Cause you need me baby and I need you So there's no need for you to have no fears Without a doubt I will be here Now I know what I want to do Everything's all right as long as I'm with you Oh, don't you understand I don't want to be alone Baby, don't you know? I really look forward to being with you When you're not around I don't know what to do You give me a feeling that I can't control You take my heart and soul Never question what I do 'Cause you need me baby and I need you

So there's no need for you to have no fears

Without a doubt I will be here
Never question what I do
'Cause you need me baby and I need you
So there's no need for you to have no fears
Without a doubt I will be here
Never question, you should never question
'Cause you need me baby, yeah boy
So there's no need for you
Without a doubt I will be here
Never question what I do
'Cause you need me baby and I need you
So there's no need for you to have no fears
Without a doubt I will be here
