Automatic High

S Club Juniors

Automatic, automaticAnd you give me that special feeling, boy
Been awake all night
And there's a beat inside my heart again
It's working overtimeNo one's moved me in this way before
It's all so brand new
You got me so I don't know where I am
Or what I'm gonna doBut I'm ready anytime
Automatic high
And I'm walking over cloud 9
Automatic highWhen I hear you calling out to me
It makes me come alive
And all the fears now seem to fade away
I've kissed the past goodbyeAnd I'm ready anytime
Automatic high
I got one thing on my mind
Automatic highEvery step, every breath, every beat of my heart
Coming on like a new sensation, it's just so easy
It's automatic, automatic, automatic high, high, high, highAutomatic, automatic, automatic, automatic
Automatic, automatic, automatic, automaticAnd I'm ready anytime
Automatic high
And I'm walking over cloud 9
Automatic highAutomatic, automatic, automatic, automatic
Automatic, automatic, automatic, automatic
Automatic, automatic, automatic, automatic
