Negotiate With Love

Rachel Stevens

2, 3
The other day you said, "Hello", we had a coffee
Now the next thing I know, you're playin' me
Was I just there for show 'cause I deserve to know
What ever happened to me
Yesterday, we were okay, why lead me on that way?
Haven't you heard of give and take?
Now you think you're in the clear, well, let me tell you, dear
Soon you'll realize your mistake
The case is closed
I don't negotiate with love
You made your choice
I won't negotiate with love
What is it you don't understand
Respect is all that I demand
You took my heart, you held my hand
So listen up and understand
Case is closed
I don't negotiate with love
Could you turn down
The track a little bit, please? Mmm
I'm thinking back in time, startin' to realize
I could've done much better than you
I turn another page to me you're just a phase
A time when I've learned a thing or two
The case is closed
I don't negotiate with love
You made your choice
I won't negotiate with love
What is it you don't understand
Respect is all that I demand
You took my heart, you held my hand
So listen up and understand
Case is closed
I don't negotiate with love
The case is closed
I don't negotiate with love
You made your choice
I won't negotiate with love

What is it you don't understand
Respect is all that I demand
You took my heart, you held my hand
So listen up and understand
Case is closed
I don't negotiate with love
